SECTION 2. GRANTING CLAUSE

- (a) **License to Use Rights-of-Way** – Licensor hereby grants Licensee, a non-exclusive, revocable license to use and occupy Rights-of-Way throughout the territorial boundaries of the City, as these boundaries may be adjusted from time-to-time due to annexations, for the permitted uses contemplated under Section 3, subject to the conditions outlined in this Agreement. Notwithstanding anything to the contrary contained herein, Licensor may only revoke the license as specifically provided herein.
- (b) **License to Use City Poles** – Licensor also grants Licensee the right to use City poles for the purpose of attaching the Communication Facility based on the then- current inventory of City poles. Access to individual City poles will be determined on a case-by-case basis pursuant to the provisions of this Agreement, the determination of the Public Works Director, and the Yakima Municipal Code.
- (c) **Non-Exclusive License** – The Licensee’s right to use and occupy the Public Rights-of-Way and attach to City poles shall not be exclusive as the City reserves the right to grant a similar use of same to itself or any person or entity at any time during the Term, provided that such other use does not unreasonably interfere with Licensee’s use and placement of its already-existing Communication Facility in any Public Rights-of-Way.

SECTION 3. PERMITTED USE OF RIGHTS-OF-WAY

- (a) **Provision of Personal Communication Service** – Public Rights-of-Way may be used by Licensee, seven (7) days a week, twenty-four (24) hours a day, only for the installation, construction, use, maintenance, operation, repair, modification,

replacement and upgrade of the Communication Facility by Licensee from time to time for Wireless Communication Service and/or Backhaul Service or to comply with applicable law, and not for any other purpose whatsoever. This Agreement shall include new types of Wireless Communication Equipment or Backhaul Equipment that may evolve or be adopted using wireless technologies. Licensee shall, at its expense, comply with all applicable federal and state laws, ordinances, rules and regulations, and Rights-of-Way Regulations in connection with the use of Public Rights-of-Way. City will provide Licensee thirty (30) days' notice of any changes to its right-of-way use ordinance.

- (b) **Installations** – Wireless Communication Equipment and Wireless Backhaul Equipment may be installed only on Licensors' poles under the terms of this Agreement, on poles under the terms of a separate agreement with the owner of such poles, or on Licensee's poles and surrounding space up to the Point-of-Demarcation, and Landline Backhaul Equipment may be installed only at the locations and as provided in a Supplemental License executed by the City.

SECTION 4. TERM AND AMENDMENTS

- (a) **Term of Agreement** – The term of this Agreement shall be for twenty (20) years commencing on the Effective Date and ending at midnight on the last day of the term (the "Term"), provided however that, unless either Party provides written notice to the other Party prior to expiration of the Term that the notifying Party will not renew the Term, the Term will automatically renew for one (1) additional five (5) year period, upon the same terms and conditions set forth in this Agreement. Notwithstanding the foregoing, in no event shall the Term expire until: (i) terminated pursuant to Section 18, or (ii) the expiration or earlier termination of all Supplemental Licenses entered into hereunder.
- (b) **Supplemental Licenses** – Each Communication Site will be subject to a Supplemental License pursuant to the terms and conditions of this Agreement and the Yakima Municipal Code. The term of each Supplemental License shall be for (5) years commencing on the date the corresponding Communication Site Application is approved as provided hereunder ("Commencement Date"), provided however that, so long as the Term is still in effect, unless Licensee provides written notice to the City prior to the expiration of the then current term that Licensee will not renew the term, the term will automatically renew for consecutive five (5) year periods, upon the same terms and conditions set forth in this Agreement, subject to increases in license fees as outlined in this Agreement, and provided the Agreement has not been terminated at the time of automatic renewal.
- (c) **Termination of Supplemental Licenses** – A Supplemental License may be terminated prior to the expiration of the Term: (i) by Licensors upon notice to Licensee, if Licensee fails to pay any amount when due hereunder concerning the applicable Communication Facility and such failure continues for thirty (30) days after Licensee's receipt of written notice of nonpayment from Licensors; or (ii) by

either Party upon notice to the other Party, if such other Party materially breaches any provision of this Agreement concerning the applicable Communication Facility and the breach not cured within sixty (60) days after receipt of written notice of the breach from the non-breaching Party; or (iii) by Licensee, at any time, with or without cause, upon notice to Licensor.

- (d) **Effect of Termination** – All Annual License Fees paid prior to the expiration or earlier termination of the Supplemental License shall be retained by Licensor. Within thirty (30) days after such expiration or earlier termination, Licensee shall provide the City Representative with a schedule and timeline for removing the Communication Facility reasonably acceptable to the City Representative, excluding certain subsurface infrastructure, the permanent abandonment of which shall be deemed to occur on the 120th day after removal of the above-surface portions of the Communication Facility and shall be deemed a transfer of ownership of such subsurface infrastructure to the City and be deemed no longer part of the Communication Facility, provided, however, that permanent abandonment shall not be deemed to occur with respect to any portions expressly excluded from abandonment as specified in a notice from Licensee to Licensor during the 120-day period or as otherwise agreed to in writing between the Parties. Licensee shall continue to be liable to Licensor for the Annual License Fee prorated for every month that such Communication Facility remains in the Rights-of-Way and the Supplemental License shall be deemed to remain in effect until it is removed. After such removal, the Supplemental License shall be of no further force or effect and Licensee shall have no further obligations for the payment of Annual License Fees to Licensor in connection therewith.
- (e) If City decides at any time to abandon any Pole, and it is not necessary to remove said pole in the sole determination of the City, it shall give the Licensee notice in writing or by electronic means at least ninety (90) days prior to the date on which it intends to abandon such pole. If, at the expiration of said period, the City and any third parties have no attachments on such pole, Licensee shall have the option of acquiring ownership of the pole by paying City a mutually agreed upon price.
- (f) Any holding over by Licensee after expiration or termination of this Agreement shall not be considered as a renewal or extension of this Agreement. Notwithstanding anything to the contrary in this Agreement and any associated Supplemental License, the occupancy of each Site after expiration or termination of this Agreement shall continue, and all other terms and conditions of this Agreement shall continue in full force and effect; provided, however, City shall have the right to apply a reasonable increase in the Annual License Fee to bring the Annual License Fee to fair market value, except to the extent that the Annual License Fee for a Site would be, in the absence of this Agreement, governed by law or regulation, in which case the Annual License Fee will be set in accordance with such law or regulation. Upon expiration or termination of this Agreement, the Parties will negotiate in good faith the terms of a replacement agreement. If the Parties have not reached agreement after one hundred eighty (180) days of good faith negotiations, City may thereafter terminate the

holdover with an additional sixty (60) days written notice. Calculation of all prorated Annual License Fees under this Section shall be based on a 30-day month. Notice of any permitted increase in the Annual License Fee under this Section shall be given in writing at least thirty (30) days prior to becoming effective.

SECTION 5. LICENSE FEES

- (a) **Annual License Fee** – The Annual License Fee per Communication Site shall be Two Hundred Seventy and 00/100 dollars (\$270.00) and includes all structure, infrastructure, appurtenant equipment and facilities available at the approved site. If the Site does not have the necessary infrastructure or facilities for Licensee’s intended use, the cost to bring those facilities to the Site shall be paid by the Licensee. Further, if the applicable City poles will not meet State, local or Federal standards, or standards of any State or Federal agency solely as a result of Licensee’s proposed installation, Licensee shall, at its sole cost, bring the applicable poles into compliance with all such required standards, prior to Licensee’s installation. The Annual License Fee shall not be prorated.
- (b) **Timing of License Fee Payments** – Licensee shall pay in advance to Licensor the Annual License Fee for the coming year for each Communication Site. The Annual License Fee for all Communication Sites installed during any given month will commence and be due on the first day of the following month (the “License Fee Commencement Date”). Thereafter, on each annual anniversary of License Fee Commencement Date, Licensee shall pay Licensor the Annual License Fees.
- (c) **Late Payment Interest** – Any Annual License Fees not paid within fifteen (15) days of receipt of written notice of non-payment will be assessed a rate of 10% per annum from that date.
- (d) **Annual License Fees to Licensor** – Licensee shall pay Licensor the fees specified in this Section in the form of a money transfer or a check made out to the order of the City of Yakima and sent to:

City of Yakima
c/o Public Works Director
2301 Fruitvale, Ave.
Yakima, WA 98902

- (e) **Periodic Increase in Annual License Fee --** The Annual License Fee shall be reviewed each year and increased to the maximum license fee allowed by law or regulation. In the event there is no maximum license fee, the Annual License Fee shall increase 3% from the previous yearly fee.

SECTION 6. APPROVAL OF COMMUNICATION SITES

- (a) **Communication Site Application** – Licensee shall file with the City Representative

a Communication Site Application for every proposed Communication Site as outlined in the Yakima Municipal Code as it now exists or is hereafter amended.

- (b) **Communication Site Approval Process** – Upon filing of a Communication Site Application, the City Representative shall process the Communication Site Application pursuant to the Yakima Municipal Code as it now exists or is hereafter amended.

(1) **Rights-of-Way Determination** – The Licensor will determine whether the location (and any existing pole) identified by Licensee as a Communication Site is within City Rights-of-Way.

(2) **Ownership of City Pole** – The Licensor will confirm the ownership of any City pole identified for installation of the Communication Facility. If a pole is a City pole, the requirements of Section 8 must be met.

(3) **Site Eligibility** – Licensor shall determine whether a requested pole or the location for the installation for a new pole is eligible as a Communication Site based on space availability or other considerations. In addition, Licensor must determine whether public safety considerations prevent eligibility of a pole as a Communication Site. Concerning a request to install a new pole, Licensor shall determine whether Rights-of-Way Regulations and availability of Rights-of-Way prevent the pole installation at the requested location. Any poles added by Licensee shall be pre-approved by Licensor prior to being installed. Installation of poles and facilities shall be at Licensee's sole risk and responsibility and in accordance with all necessary permits and applicable regulations related thereto. Licensor uses of its poles shall take priority and all other uses and facilities shall be placed to accommodate Licensor's facilities and use of the pole, as directed by Licensor.

(4) **Review Criteria** – For each Communication Site Application, the City Representative shall:

- a. Verify that the Communication Site Application is complete.
- b. Review engineering design documents to determine:
 - i. compliance with contractual requirements under this Agreement; and
 - ii. no interference with City public safety radio system, traffic signal light system, or other communications components; and
 - iii. compliance with City pole attachment regulations for traffic light poles, including replacement of an electric meter with dual meters, if and as applicable.

- c. Determine compliance with any other applicable requirements.

All Communication Site Applications requesting access to a City pole must include a load bearing study to determine whether the attachment of the Communication Facility may proceed without pole modification or whether the installation will require pole reinforcement or replacement. If pole reinforcement or replacement is necessary, Licensee shall provide engineering design and specification drawings demonstrating the proposed alteration to the pole.

As appropriate, the City Representative shall require Licensee to make design modifications in order to comply with applicable contractual, regulatory, or legal requirements. Failure to make the requested design modifications shall result in an incomplete Communication Site Application which may not be processed under this Agreement.

- (5) **Approval of Application** – Upon finding that the Communication Site Application is complete and in compliance with all applicable requirements as outlined above, the City Representative shall approve such Communication Site application. The approval of the Communication Site Application requesting to attach to a City pole, or to install a new pole, shall authorize Licensee to proceed to obtain all generally applicable, ministerial permits that are required of all occupants of the Public Rights-of-Way, if required (collectively, “ROW Permit”). Licensee shall comply with the requirements of the Rights-of-Way Regulations. Licensee shall pay all appropriate Washington standard promulgated one-time ROW Permit fees (“ROW Permit Fees”), if required. In no event shall Licensor treat Licensee’s Communication Site Applications or ROW Permit applications in a more burdensome manner than Licensor treats Public Rights-of-Way access permits of all other public utilities and telecommunications services providers. Upon obtaining a ROW Permit, Licensee may proceed to install the Communication Facility in coordination with any affected City departments.
- (6) **Execution of Supplemental License** – Upon approval of the Communication Site Application, the Parties shall execute a Supplemental License, which shall be effective as of the date of application approval.

SECTION 7. CONSTRUCTION WORK-REGULATION BY CITY

- (a) **Compliance with Law Required** – The work done by Licensee in connection with the installation, construction, maintenance, repair, and operation of Communication Facility on poles within the Public Rights-of-Way shall be subject to and governed by all pertinent local and state laws, rules, regulations, including the City’s Rights-of-Way Regulations, that are applicable to ensuring the work done does not unduly inconvenience the public in the use of the surface of the streets and sidewalks, and at the expense of the Licensee.

- (b) **Duty to Minimize Interference** – All pole excavations, construction activities, and aerial installations on poles in the Rights-of-Way shall be carried on as to minimize interference with the use of City's Rights-of-Way and with the use of private property, in accordance with all regulations of the City necessary to provide for public health, safety and convenience.

SECTION 8. CONSTRUCTION, RESTORATION AND MAINTENANCE ACTIVITIES

- (a) **Eligibility of City Pole** – Prior to submitting a Communication Site Application related to the use of a City pole, Licensee shall verify with the City the eligibility of the specified pole for attachment of the Communication Facility. City has the sole authority to determine whether a pole is eligible or ineligible for use under this agreement. In addition, Licensee shall conduct an engineering load bearing study to determine whether the pole can withstand the added weight of the Communication Facility. If the proposed installation will require pole reinforcement or replacement, the engineering design documents included with the Communication Site Application shall include specifications relating to the proposed pole reinforcement or replacement. Construction activities involving pole reinforcement or replacement shall be coordinated with applicable City personnel and the Rights-of-Way Manager.
- (b) **Compliance with Rights-of-Way Regulations** – In the installation, construction, maintenance, upgrade, and operation of Communication Facility, Licensee shall comply with the provisions of the Rights-of-Way Regulations and permit requirements, including but not limited to provisions and permits pertaining to the following activities:
 - (1) construction activities related to the installation, maintenance, repair, upgrade, and removal of Communication Facility on existing poles in the Rights-of-Way;
 - (2) installation of new poles in the Rights-of-Way;
 - (3) cut or otherwise disturb the surfaces of the Rights-of-Way;
 - (4) disruption of vehicular and pedestrian traffic on Rights-of-Way to a minimum as reasonably necessary to execute the required work;
 - (5) applicable excavation and restoration standards; and
 - (6) pavement repairs.
- (c) **Submission of Engineering Plans** – Prior to installation, Licensee shall submit engineering plans to the Rights-of-Way Manager for review and approval in accordance with the Rights-of-Way Regulations.

- (d) **Identification of Utility Lines** – Prior to beginning any excavation or boring project on Public Rights-of-Way, Licensee shall engage a utility locator service. Licensee has the responsibility to protect and support the various utility facilities of other providers while conducting construction, installation, and maintenance operations.
- (e) **Maintenance and Repair of Communication Facility** – Licensee shall keep and maintain all Communication Facility installed on Public Rights-of-Way in commercially reasonable condition and repair throughout the Term, normal wear and tear and casualty excepted. Licensee shall have the right to conduct testing and maintenance activities, and repair and replace damaged or malfunctioning Communication Facility at any time during the Term.
- (f) **Upgrade of Communication Facility** – Licensee shall have the right to upgrade the Communication Facility with next-generation equipment and innovative new technologies. Prior to making any such equipment or technology upgrade that materially changes the size or weight of the Communication Facility, Licensee shall file a Communication Facility Application with the City Representative, who shall review the application for compliance with the permitted use under this Agreement and to verify that the new installation will not cause any interference with City's public safety communications system, traffic light signal system, or other City communications infrastructure operating on spectrum where the City is legally authorized to operate. Licensee will address any interference issues prior to approval of such application.
- (g) **Coordination of Maintenance and Equipment Upgrade Activities** – Prior to Licensee engaging in planned or routine maintenance activities, or equipment upgrades concerning Communication Facility attached to a City traffic light pole, Licensee shall provide twenty (20) days advance notice to the City Representative in order to coordinate such maintenance activities with City operations of the traffic light system or other public safety functions. Licensee shall obtain all necessary permits prior to engaging in any maintenance or equipment upgrade activities in the Rights- of-Way regardless of pole ownership. Such twenty (20) day advance notice shall not be required in the case of an emergency.
- (h) **Removal of Non-Compliant Installations** – The City shall have the authority at any time to order and require Licensee to remove and abate any Communication Facility or other structure that is in violation of the City's Rights-of-Way Regulations. In case Licensee, after receipt of written notice and thirty (30) days opportunity to cure, fails or refuses to comply, the City shall have the authority to remove the same at the expense of Licensee, all without compensation or liability for damages to Licensee.
- (i) **Reservation of Rights** – The City reserves the right to install, and permit others to install utility facilities in the Rights-of-Way. In permitting such work to be done by others, the City shall not be liable to Licensee for any damage caused by those

persons or entities.

- (j) **No Limitation in City's Operation of Traffic Light Signal System** – The Parties agree that this Agreement does not in any way limit Licensor's right to locate, operate, maintain, and remove City traffic light poles in the manner that best enables the operation of its traffic light signal system and protect public safety. The City Representative may deny access to City traffic light poles due to operational conditions at the requested site, limited space availability, public safety concerns, future traffic signal system planning, or other operational considerations. Further, nothing in this Agreement shall be construed as granting Licensee any attachment right to install Communication Facility to any specific traffic light pole, other than an approved Communication Site Application and execution of the corresponding Supplemental License under the terms of this Agreement.
- (k) **Coordination of Traffic Light Maintenance Activities and Emergency Response** – Prior to conducting planned or routine maintenance on specific components of the traffic light signal system mounted on poles where Communication Facility has been installed, the City shall provide Licensee thirty (30) days advance written notice of such maintenance activities. In advance of such maintenance activities, Licensee shall temporarily cut-off electricity to its Communication Facility for the safety of maintenance personnel. In the event of failure of components of the traffic light signal system for whatever reason, including damage resulting from vehicular collisions, weather related events, or malicious attacks, Licensor will respond to restore traffic light signal operations as a matter of public safety under the emergency provisions outlined in Section 12. Should the events that result in damage or failure of the traffic light signal system also affect Communication Facility, Licensee shall have the sole responsibility to repair or replace its Communication Facility and shall coordinate its own emergency efforts with the City.
- (l) **Relocation**

In the event the City desires to replace, relocate, improve, or modify the Right-of-Way, or demolish any pole owned by the City and used by Licensee, in connection with any type of public improvement project, in a manner likely to cause interference with the Communication Facility therein, the City shall have the right to cause Licensee to relocate the Communication Facility subject to the terms and conditions herein.

(a) Relocation. If the City requires Licensee to relocate Communication Facility from all or any portion of a City pole, the City shall have the right to require Licensee to relocate to an alternative space upon the following terms and conditions: (i) City shall deliver to Licensee a relocation notice to relocate the Communication facility at least ninety (90) days from the date on which Licensee must relocate the Communication Facility; (ii) City shall identify a suitable relocation space to ensure that it provides substantially similar signal coverage for the Licensee as that of the space being relocated; (iii) such relocation will be performed exclusively by Licensee with costs paid by Licensee; (iv) Licensee shall have the right to operate a temporary cell site if feasible in

a mutually agreeable location in the vicinity of the original pole or space during such relocation with no additional fee due to City; and (v) the Annual License Fee applicable to such new space shall not be payable until the Licensee achieves full on-air operation in the ordinary course of Licensee's business in the relocated space. Licensee shall not be required to pay any additional application, review or other fees in connection with any relocation initiated by City. If, in Licensee's reasonable judgment, no suitable relocation space can be found, then Licensee shall have the right to terminate the applicable Supplemental License for which City is requiring relocation upon written notice to the City, and without penalty or further obligation.

(b) Relocation In The Event of An Emergency. Notwithstanding Section (I)(a) above, in the event of an emergency, the City will endeavor to provide as much notice to Licensee for the relocation of the Communication Facility as warranted by the circumstances pertaining to the emergency.

SECTION 9. SUPERVISION BY CITY OF LOCATION OF POLES

(a) **Supervision by Rights-of-Way Manager** – In the event Licensee desires to install poles on Public Rights-of-Way in order to install a Communication Facility at a selected Communication Site, such poles shall be owned and maintained by Licensee. Such poles shall be of adequate strength and straight, and shall be set so that they will not interfere with the flow of water in any gutter or drain, so that they will not interfere with any other existing utilities or already-existing facilities, and so that they will not unduly interfere with ordinary travel on the streets or sidewalk. The location of all Licensee's personal property, poles, and electrical connections placed and constructed by the Licensee in the installation, construction, and maintenance of Communication Facility shall be subject to the lawful, reasonable and proper control, direction and/or approval of the Rights-of-Way Manager.

(b) **Pre-Approval by Rights-of-Way Manager** – Prior to submitting a Communication Site Application covering the installation of a new pole, Licensee shall verify with the Rights-of-Way Manager the eligibility of the Rights-of-Way location for the proposed pole installation. Licensee shall include in the Communication Site Application documentation from the Rights-of-Way Manager approving the proposed pole.

SECTION 10. INTERFERENCE WITH OTHER FACILITIES PROHIBITED

(a) **Interference with Rights of Others Prohibited** – Licensee shall not impede, obstruct or otherwise interfere with the installation, existence and operation of any other pre-existing facility in the Rights-of-Way, including sanitary sewers, water mains, storm water drains, gas mains, poles, aerial and underground electrical infrastructure, cable television and telecommunication wires, public safety and City networks, and other telecommunications, utility, or City personal property.

(b) **Signal Interference with City's Communication Infrastructure Prohibited** – In the event that Licensee's Communication Facility interferes with the City's traffic light signal system, public safety radio system, or other City communications infrastructure operating on spectrum where the City is legally authorized to operate,

Licensee will respond to the Licensor's request to address the source of the interference as soon as practicable, but in no event later than twenty-four (24) hours of receiving written notice.

- (c) **Inspection** - Licensor reserves the right to make inspections of each of Licensee's attachments and related equipment on City poles at any time. Licensor may charge Licensee for the reasonable expense of any inspection and for necessary make ready work including pre-construction, post construction, provided that Licensor has provided written notice to Licensee of such make ready work, and with reasonable discretion, subsequent and periodic inspections of the Communication Facilities occupying the City's poles and its Rights-of-Way. Licensee shall reimburse Licensor for the cost of such inspections.

SECTION 11. COMPLIANCE WITH UTILITY REGULATIONS

Compliance with Local Regulations – All Communication Facility installations shall be in compliance with all relevant legal requirements for connecting the Communication Facility to electricity and telecommunications service. City is not responsible for providing electricity or transport connectivity to Licensee.

SECTION 12. EMERGENCY CONTACTS

- (a) **Coordination of Emergency Events** – In case of an emergency due to interference, failure of traffic light signal system, or any unforeseen events, Licensor will act to protect the public health and safety of its residents, and to protect public and private property, notwithstanding any provision in this Agreement. Licensor will make every reasonable effort to coordinate its emergency response with the Licensee. To that end, the Licensor will use the following emergency contacts: The Licensee's network operations center may be reached 24/7 at (800) 832-6662.
- (b) **Licensee's Duty to Maintain Current Emergency Contacts** – Licensee will maintain the emergency contact information current at all times with the City Representative.
- (c) **Licensee's Response to Network Emergency** - In case of a network emergency, Licensee may access its Communication Facility without first obtaining necessary permits, provided Licensee has conducted network trouble-shooting and diagnostic tests and has reasonably identified the point or points of network failure or malfunction. While acting under this provision to address a network emergency, Licensee shall conduct its activities within the Rights-of-Way in such a manner as to protect public and private property. Licensee will make every reasonable effort to coordinate its emergency response with the Licensor. To that end, prior to entering the Rights-of-Way, Licensee will contact the City Representative and give notice to Licensor of the network emergency and an estimated time period to

address the situation. Licensee will obtain necessary permits as soon as possible after the emergency to cover its emergency work.

- (d) **Licensors' Duty to Maintain Emergency Contacts** – Licensors will maintain the emergency contact information current at all times with Licensee.

SECTION 13. INDEMNITY

- (a) **General Indemnity Clause** – Licensee covenants and agrees to INDEMNIFY, DEFEND and HOLD HARMLESS, the City and the elected officials, employees, officers, directors, agents and representatives of the City, individually and collectively (“Indemnitees”), from and against any and all costs, claims, liens, damages, losses, expenses, fees, fines, penalties, proceedings, actions, demands, causes of action, liability and suits of any kind and nature, including but not limited to, personal or bodily injury, death and property damage, made upon the City arising out of a third-party claim to the extent arising from any negligent acts or omissions of Licensee, any agent, officer, director, representative, employee, consultant or subcontractor of Licensee, or their respective officers, agents employees, directors or representatives while in the exercise of the rights or performance of the duties under this Agreement. The indemnity provided for in this paragraph shall not apply to any liability arising from the negligence of the City or an Indemnatee. IN THE EVENT LICENSEE AND CITY ARE FOUND JOINTLY LIABLE BY A COURT OF COMPETENT JURISDICTION, LIABILITY SHALL BE APPORTIONED COMPARATIVELY IN ACCORDANCE WITH APPLICABLE LAW, WITHOUT, HOWEVER, WAIVING ANY GOVERNMENTAL IMMUNITY AVAILABLE TO THE CITY UNDER STATE LAW AND WITHOUT WAIVING ANY DEFENSES OF THE PARTIES UNDER STATE LAW.
- (b) **Licensors' Duty to Notify Licensee of Claims** – The City shall give prompt written notice to Licensee of any claim for which the City seeks indemnification. Licensee shall have the right to investigate, defend, and compromise these claims with prompt notice to the City attorney. Said approval shall not be unreasonably withheld, delayed or conditioned.

In such event, City shall execute such consent to financing as may reasonably be required by Mortgagees.
