RE: Levy Lid Lift follow-up, February ballot

This is to provide feedback on progress on the December 3rd resolution authorizing the submission of a Levy Lid Lift proposition for February 11, 2020, election.

The resolution included authorization of a voters' pamphlet, including arguments for and against, prepared by committees appointed by council not later than 45 days before publication. However, the decision selecting the February 11th election date precludes any such committee or pamphlet due to the 45-day time frame because there are only 35 days remaining from the January 7th council meeting to the election itself.

The County Elections office confirmed receipt of the ballot title and language approved by resolution.

Further, staff is working on FAQs to be made available over the various City communications platforms.
