Project Long Description:

Interstate 82 Exit 33A (a.k.a. Yakima Resources; Gateway Shopping Center) (CSID# 3853/FSID# 1927) is an old landfill located at 805 North 7th Street., Yakima. The Cascade Lumber Company (later Boise Cascade) used the property as a lumber mill in the early to mid-1900s. From 1963-1972, some of the large ponds were used by the RECIPIENT as a municipal landfill.

Agreement No: TCPRA-1921-YakiCM-00126
Project Title: Interstate 82 Exit 33A Yakima City Landfill
Recipient Name: CITY OF YAKIMA

Boise Cascade currently owns the majority of the Site, but the RECIPIENT has acquired ownership of the rights-of-way for the planned roadway corridor.

Several investigations over the years showed releases and/or potential releases of hazardous substances at the Site. This includes, but is not limited to, diesel range organics; heavy oils; vinyl chloride; n-nitrosodiphenylamine; 4,4'-DDT; 4-4'-DDD; endosulfan II; bis(2-ethylhexyl)phthalate; 3,3'-dichlorobenzidine; arsenic; iron; manganese; nitrate; PCB aroclors; and sodium and methane gas.

Agreed Order No. DE 15861 between the RECIPIENT and ECOLOGY was executed on July 09, 2018, and requires the RECIPIENT to:

- Submit data from previous environmental studies into Ecology's electronic Environmental Information management (EIM) database.
- Update the Site's Conceptual Site Model.
- Prepare a Feasibility Study to develop and evaluate alternative cleanup actions.
- Prepare a Draft Cleanup Action Plan that selects the preferred cleanup action from the alternatives outline in the Feasibility Study and specifies the cleanup standards and other requirements.
- Interim Actions may be conducted in conjunction with road construction and related improvements at the Site.

Overall Goal:

This cleanup is integral to the RECIPIENT's plans to construct an east-west traffic corridor over the Yakima River. Cleanup is imperative for future construction of the freeway interchange and associated roads and infrastructure. Once infrastructure is in place, future development can occur.

Funding Source %: 100%

Description: Remedial action grants and loans are provided to local governments in Washington State to facilitate the cleanup of publicly owned lands contaminated with hazardous substances. Grants or Loans offered include those for initial investigations, independent cleanups, cleanups conducted under order or consent decree, safe drinking water actions, areawide groundwater investigations, and integrated planning activities. The remedial action grant and loan program was created by the Model Toxics Control Act (MTCA), Chapter 70.105D RCW. MTCA directed Ecology to adopt rules for grant and loan issuance and performance. Those rules are in Chapter 173-322A WAC, Remedial Action Grants and Loans. Funds for remedial action grants and loans come from a tax on hazardous substances. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this Agreement, ECOLOGY, at its sole discretion, may elect to terminate the Agreement, in whole or part, or renegotiate the Agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the Agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions, although ECOLOGY will make a reasonable attempt to provide notice.

In the event of termination or suspension, ECOLOGY will reimburse eligible costs incurred by the RECIPIENT through the effective date of termination or suspension. Reimbursed costs must be agreed to by ECOLOGY and the RECIPIENT. In no event shall ECOLOGY's reimbursement exceed ECOLOGY's total responsibility under the agreement and any amendments. If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT's obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT's governing body.
