City of Yakima
Council Members
o/c City Manager
Office

This letter is to address the assistance I received from the City of Yakima's Senior/Disabled Emergency Home Repair Program. I received the phone # to this program from O.I.C. winterized program. Because I been approved for that program. When they found out I had no heat or hot water.

I call office and talk with Mr Archie M. Matthews. He was very kind and helpful. He got me set up for verification with his assistant Marie. Who went the exact mile because I have no transportation at this time. With my underlying health condition of Pulmonary disease. I'm home bound in a the case of C-19. Mr Matthews approved me. And this program. Supplied my home with a console heater - and hot water tank.

I thank the City for this program it enable me to maintain an independent life style in my home of 31 years. I'm sure there are others like myself who need this program to stay safe and in there home's -

with your help. With my illness
I'm impaired but can well live
20 more years or so. With my low
income it would have been impos-
sible to replace the heater and tank
in 5 years of saving. Thank you
for this blessing this is the kindest
thing I ever received.

My only hope is the Council
see fit to keep funding this program
for others. Senior and the Disabled
of are for City of Yakima

Sincerely
Teresa R.
