

RESOLUTION NO. R-2021-

A RESOLUTION authorizing a sole source purchase for goods and services from Record-USA to upgrade and install an automated passenger security exit lane system at the Yakima Air Terminal-McAllister Field's main terminal building

WHEREAS, the existing passenger security exit lane system is manually controlled through the airport's access control system at the Yakima Air Terminal-McAllister Field is outdated and does not provide adequate passenger spacing in order to prevent the spread of the COVID-19 virus and will ensure the airport will uphold stringent Transportation Security Administration regulations. The cost of this project is \$99,636.00, and

WHEREAS, Article IV, Section 6 of the City of Yakima Charter and the Yakima Municipal Code Chapter 1 80 generally require that purchase of equipment, materials, or services in excess of \$50,000 be done by competitive bid, subject to certain exceptions, and

WHEREAS, the law recognizes a "sole source purchase" exception from these competitive bidding requirements when, due to the uniqueness of the product to be purchased and the fact that there is only one source, it would be futile to utilize competitive bidding for such product, and

WHEREAS, the Yakima Air Terminal-McAllister Field requires this immediate upgrade to install an automated passenger security lane exit in the terminal to facilitate proper exit and spacing of exiting passenger, in order to update aging infrastructure while upholding stringent Transportation Security Administration regulations, and combating the spread of the COVID-19 virus, and

WHEREAS, Record-USA is the only certified automated passenger security exit lane manufacture meeting stringent Transportation Security Administration regulations, and therefore there are no alternates available for the project so any requirement for competitive bidding should be waived by adoption of this Resolution, pursuant to RCW 39.04.280(1), and

WHEREAS, the City Council finds that it is in the best interest of the City and its residents to authorize goods and services provided by Record-USA to upgrade and expand the Yakima Air Terminal-McAllister Field's passenger security exit lane system without calling for bids and enter into an agreement with Record-USA for the goods and services necessary, now, therefore,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF YAKIMA:'

Section 1: The City Council finds and determines that the purchase of the automated passenger security lane exit is clearly and legitimately limited to a sole source of supply, justifying the waiver of competitive bidding in this acquisition, which bidding requirements are hereby waived.

Section 2: The purchase of the automated passenger security lane exit, as described above and in the agreement, for an amount not to exceed \$99,636.00 is approved.

Section 3: The City Manager is hereby authorized and directed to approve the agreement with Record-USA to install the automated passenger security lane exit, and any other necessary documents to accomplish the agreement.

ADOPTED BY THE CITY COUNCIL this 21st day of September, 2021.

ATTEST:

Patricia Byers, Mayor

Sonya Claar Tee, City Clerk
