During the performance of this Contract, the Contractor agrees as follows:

The Contractor shall not discriminate against any person on the grounds of race, creed, color, religion, national origin, sex, age, marital status, sexual orientation, gender identity, pregnancy, veteran's status, political affiliation or belief, or the presence of any sensory, mental or physical handicap in violation of the Washington State Law Against Discrimination (RCW chapter 49.60) or the Americans with Disabilities Act (42 USC 12101 et seq.).

Agreement or the acts, failures to act, errors or omissions of the Contractor, or any Contractor's agent or subcontractor, in performance of this Agreement, except for claims caused by the City's sole negligence.

- b. **Industrial Insurance Act Waiver.** It is specifically and expressly understood that the Contractor waives any immunity that may be granted to it under the Washington State industrial insurance act, Title 51 RCW, solely for the purposes of this indemnification. Contractor's indemnification shall not be limited in any way by any limitation on the amount of damages, compensation or benefits payable to or by any third party under workers' compensation acts, disability benefit acts or any other benefits acts or programs. Contractor shall require that its subcontractors, and anyone directly or indirectly employed or hired by Contractor, and anyone for whose acts Contractor may be liable in connection with its performance of this Agreement, comply with the terms of this paragraph, waive any immunity granted under Title 51 RCW, and assume all potential liability for actions brought by their respective employees. - d. Nothing contained in this Section or this Contract shall be construed to create a liability or a right of indemnification in any third party.
- e. The terms of this Section shall survive any expiration or termination of this Contract.

14. Contractor's Liability Insurance

At all times during performance of the Services and this Contract, Contractor shall secure and maintain in effect insurance to protect the City and Contractor from and against any and all claims, damages, losses, and expenses arising out of or resulting from the performance of this Contract.

A copy of the additional insured endorsement attached to the policy shall be included with the certificate. This Certificate of insurance shall be provided to the City, prior to commencement of work.

Failure of City to demand such verification of coverage with these insurance requirements or failure of City to identify a deficiency from the insurance documentation provided shall not be construed as a waiver of Contractor's obligation to maintain such insurance.

The following insurance is required:

- a. **Commercial Liability Insurance**

Before this Contract is fully executed by the parties, Contractor shall provide the City with a certificate of insurance and additional insured endorsements as proof of commercial liability insurance with a minimum liability limit of Two Million Dollars (\$2,000,000.00) per occurrence, combined single limit bodily injury and property damage, and Two Million Dollars (\$2,000,000.00) general aggregate. 5. Equal/Approved Equal

These specifications are intended to be precise where a specific make, model or trade name is requested. Whenever a make, model or trade name is used, it shall be that or equal, or approved equal. Equal or approved equal means that the make, model or trade name will be given consideration if they fulfill the same performance requirements. The City reserves the right to make the decision on acceptability. Each bidder shall clearly identify make, model or trade name of equipment bid on the bid form. Any equipment proposed as an equal to that herein specified must be substantiated with supporting data to justify such request for substitution.

6. Exceptions

Specifications of the equipment bid shall be equal to or better than the specifications stated herein and all exceptions to these specifications shall be so listed on a separate sheet headed "EXCEPTIONS TO THE SPECIFICATIONS". Any Bid submitted without exceptions will be required to meet every detail of these specifications regardless of cost to the successful bidder, including the cost to meet the insurance requirements.

Where "NO EXCEPTIONS" are shown, none will be allowed. No exceptions will be considered that may tend to devalue the equipment or give an individual bidder who is offering a lesser item a distinct advantage.

7. More or Less

Quantities are estimated only and shall be bid on a MORE OR LESS basis. For the purpose of comparison, bids shall be made in the quantities listed in this specification. Listed quantities shall not be considered firm

estimates of requirements for the year, nor shall the City be bound or limited to quantities listed. Payment will be made only for quantities actually ordered, delivered, and accepted, whether greater or less than the stated amounts.

8. Published List Prices

If applicable, a copy of your published list prices shall be included in the Bid package. Each Bidder shall bid a percentage discount based on this published list in the space provided on the Price /Cost Sheet.

It is understood that the discount quoted on this Bid shall be based on the attached published list price and these shall be the prices paid during the life of the contract.

9. Delivery/Completion

Each bidder is required to list on the Bid form the number of calendar days he/she expects delivery to be made at the destination, in terms of time interval, following placement of order. Time of delivery/completion is important and will be considered in the evaluation of the Bids. Failure to include a specific number of calendar days may be sufficient grounds for rejection of Bid.

10. Delivery Acceptance

Delivery will be accepted by the City of Yakima **FOB Water/Irrigation Department, 2301 Fruitvale Boulevard, Yakima, Washington, 98902, inside delivery, between the hours of 8:00 a.m. and 3:00 p.m. Monday through Friday**, ready for regular and safe operation.

11. Delivery of Unapproved Substitutions

Contractors are authorized to ship only those items ordered covered by the contract. If a review of orders placed by the City reveals that an item other than those covered by and specified in the contract have been ordered and delivered, the Purchasing Manager will take such steps as are necessary to have the item(s) returned to the Contractor at no cost to the City regardless of the time elapsed between the date of delivery and discovery of the violation. Violation of this clause may result in the removal of the offending Contractor's name from the City bid list for a period of up to three (3) years.

12. Contract Term

See Section 3 of Contract

The period of this contract shall be for a period of one year from its effective date. Contract may be extended on the anniversary date for one (1) additional one (1) year periods, not to exceed five (5) years total.

13. Pricing and Discount

Pricing: Pricing shall be prepared with the following terms.

The successful Bidder shall provide and bear the expense of all equipment; work and labor of any sort whatsoever that may be required for the transfer of materials/product and completing the work provided for in this Bid and every part thereof, except such as are mentioned in the specifications to be furnished by the City of Yakima. **Surcharges for fuel, delivery/hauling, hazardous material disposal, environmental fees or similar will not be allowed. Relevant charges for these items shall be included in the base bid price.**

All successful Bidders are subject to the minimum insurance requirements as outlined in the sample contract. **BIDDERS MUST INCORPORATE THE COST TO COMPLY WITH THE INSURANCE REQUIREMENTS IN THE BID PRICE.** Requests for lower insurance limits will be denied.

Prices established in continuing agreements and term agreements may be lowered due to general market conditions, but prices shall not be subject to increase for twelve (12) months from the date of award.

Discounts: The City qualifies for governmental discounts. Unit prices shall reflect these discounts.

14. Price Clarifications

The City reserves the right to clarify any pricing discrepancies related to assumptions on the part of Bidders. Such clarifications will be solely to provide consistent assumptions from which an accurate cost comparison can be achieved.

Unit prices shown on the Bid or Contract shall be the price per unit of sale (e.g., gal., cs., doz., ea.) as stated on the bid form. For any given item, the quantity multiplied by the unit price shall establish the extended price, the unit price shall govern in the Bid evaluation and contract administration.

15. Price Increases

Requests for Rate Increases must be delivered to the Buyer listed on Page 2, in accordance with the rules below. The Purchasing Manager may exempt these requirements for extraordinary conditions that could not have been known by either party at the time of bid or other circumstances beyond the control of both parties, as determined in the opinion of the Purchasing Manager.

Any increase proposed shall be submitted to the Buyer listed on page 2, thirty (30) calendar days before the proposed effective date of the price increase, and shall be limited to fully documented cost increases to the Contractor which are demonstrated to be industry-wide. The conditions under which price increases may be granted shall be expressed in Bid documents and contracts or agreements.

No other employee may accept a rate increase request on behalf of the City. Any invoice that is sent to the City with pricing above that specified by the City in writing within this Contract or specified within an official written change issued by Purchasing to this contract, shall be invalid. Payment of an erroneous invoice does not constitute acceptance of the erroneous pricing, and the City would seek reimbursement of the overpayment or would withhold such overpayment from future invoices.

- A. **Discount from Manufacturer List Pricing:** For all contract items that are priced as a discount below Manufacturer List prices, there shall be no changes to the discount rate throughout the life of the contract. As manufacturer list prices change, the net price to the City will automatically change in the same percentage as the discount rate to the City.
- B. **Fixed Product Pricing:** For product and supply contracts that provide on-going, multiple year supply. Original pricing shall be fixed and firm for the first year of the contract.

Price requests are at the discretion of the Purchasing Manager; and must also be:

- a. The direct result of increases at the manufacturer's level (or if Bidder is a supplier of a raw material delivered directly to the City such as brass, the increase must be verified at the supplier level).
- b. Incurred after contract commencement date.
- c. Not produce a higher profit margin than that on the original contract.
- d. Clearly identify the items impacted by the increase.
- e. Be filed with Purchasing Manager a minimum of thirty (30) calendar days before the effective date of proposed increase.
- f. Be accompanied by detailed documentation acceptable to the Purchasing Manager sufficient to warrant the increase.
- g. Should not deviate from the original contract pricing scheme/methodology.

The United States published indices such as the Producer Price Index or other government data may be referenced to help substantiate the Contractor's documentation. The PPI Commodity Data is available at <https://www.bls.gov/ppi/detailed-report/home.htm#2021> .

The adjustment (if any) shall remain firm and fixed for at least 365 days after the effective date of the adjustment. If no adjustment is mutually agreed upon; the contractor may provide a notice to cancel as outlined in the contract under Section 17, Termination for Convenience.

16. Price Decreases

During the contract period and any renewals thereof, any price declines at manufacturer's level shall be reflected in a reduction of the contract price to the City, retroactive to the date they were effective to the bidder.

17. Expansion Clause

Any resultant contract may be further expanded by the Purchasing Manager in writing to include any other item normally offered by the bidder, as long as the price of such additional products is based on the same cost/profit formula as the listed item(s). At any time during the term of this contract, other City departments may be added, if both parties agree.

18. Warranty

Unless otherwise specifically stated by the Bidder, all goods and services furnished shall be warranted against defects or faulty workmanship and materials by the Contractor for one (1) year following inspection and acceptance of the products by the City. Warranty shall include all costs incurred, including shipping, for repair or replacement except that which is damaged by misuse or abuse. This one-(1) year warranty shall in no way affect normal extended or manufacturer's warranty exceeding this one (1) year period. Contractor warrants that all goods and services furnished under this Agreement are new, conform strictly to the specifications herein, are merchantable, good workmanship, free from defect, comply with all applicable safety and health standards established for such products, all goods are properly packaged, and all appropriate instructions or warnings are supplied. If a defect is found, a component failure occurs, or workmanship is found to cause failure, the Vendor shall replace the product at their own expense, including shipping charges. Any replacement product will be warranted for one (1) year from the date it is delivered. All implied and expressed warranty provisions of the Uniform Commercial Code are incorporated into this Agreement. Contractor further warrants that no violation of any federal, state or local law, statute, rule, regulation, ordinance or order will result from the manufacturer, production, sale, shipment, installation or use of any other goods. Contractor's warranties (and any more favorable warranties, service policies, or similar undertaking of Contractor) shall survive delivery, inspection, and acceptance of the goods or services.

19. Warranty Coverage

Warranty coverage will not commence until the date the completed unit is put into service as reported by the City; or thirty (30) days after final payment for the unit(s); whichever occurs first.

20. Regulations and Codes

To the extent applicable, all equipment or materials shall comply with Washington State vehicle regulations, Federal regulations, OSHA and WISHA requirements, to include EPA standards and City safety codes.

In addition, all fittings and valves shall be manufactured in accordance with AWWA Standard C-800, latest revision, and as further specified in these Technical Specifications.

Exception: Any brass part of the fitting or valve in contact with potable water shall be made of a "No-Lead Brass", defined for this specification as UNS Copper Alloy No. C89520 or C89833 in accordance with the chemical and mechanical requirements of ASTM B584 and AWWA C-800. This "No-Lead Brass" alloy shall not contain more than nine one hundredths of one percent (0.09% or less) total lead content by weight.

Any brass part of the fitting or valve not in contact with potable water shall be made of 85-5-5-5 brass and defined for this specification as UNS Copper Alloy C83600 per ASTM B62, ASTM B584 and AWWA C-800.

All brass fittings and valves shall be certified by an ANSI accredited test lab per ANSI/NSF Standard 61, Drinking Water Components – Health Effects, Section 8. Proof of certification is required. The lead content of the wetted components in contact with potable water shall also be verified by an ANSI accredited test lab.

Brass fittings and valves shall comply with the United States of America Safe Drinking Water Act, and the U.S. Environmental Protection Agency.

All brass fittings and valves shall have the manufacturers name or trademark permanently stamped or cast on it. Another marking identifying the "no lead" brass alloy, e.g., 'NL', shall be cast or permanently stamped on the fitting or valve.

21. Quality Control and Testing

If requested, an affidavit certifying compliance with these standards and specifications shall be signed and submitted by the manufacturing firm's Quality Assurance or Engineering Manager.

22. Prompt Payment

Bidders are encouraged to offer a discount for prompt payment of invoice. Please indicate your discount proposal on page 2 of this document. If awarded by the City, period of entitlement begins only after:

- ◆ Receipt of a properly completed invoice
- ◆ Receipt of all supplies, equipment or services ordered
- ◆ Satisfactory completion of all contractual requirements

23. Payments

Contractor is to submit properly completed invoice(s) to:

City of Yakima, Accounts Payable, 129 N. 2nd Street, Yakima, WA 98901.

To insure prompt payment each invoice should cite purchase order number, bid number, description of item purchased, unit and total price, discount terms and include the Contractor's name and return remittance address. Payment will be mailed within thirty (30) days of (a) the receipt and acceptance of the equipment, (b) properly completed invoice, and (c) all papers required to be delivered with equipment.

24. Payment Method – Credit Card Acceptance

The City, in its sole discretion, will determine the method of payment for goods and/or services as part of this agreement. The City's preferred method of payment is by procurement (credit) card. Respondents may be required to have the capability of accepting the City's authorized procurement card as a method of payment. No price changes or additional fee(s) may be assessed when accepting the procurement card as a form of payment.

25. Acceptance of Terms

Acceptance of a City Purchase Order (PO) for any units affiliated with this purchase constitutes acceptance of, and agreement with, all of the general and specific requirements and stipulations listed in this boiler plate, and in the attached equipment specification(s); including all penalties mentioned.

26. Sales Tax

The City of Yakima's Sales Tax rate is currently 8.3%. However, the amount of sales tax will not be considered in determining which bid is the lowest and best bid.

27. Tax Revenues

RCW 39.30.040 allows the City to consider the tax revenue that is generated by a purchase of supplies, materials, and equipment, including those from a local sales tax or from a gross receipts business and occupation tax, in determining which bid is the lowest bid, after the tax revenue has been considered.

28. Clarifications and/or Revisions to Specification and Requirements

If a Bidder discovers any significant ambiguity, error, conflict, discrepancy, omission, or other deficiency in this solicitation, the Bidder has a duty to immediately notify the Buyer of such concern and request modification or clarification of the BID document.

Unless instructions are specifically provided elsewhere in this document, any questions, exceptions, or additions concerning the subject matter of the BID document(s) shall not be considered unless submitted via e-mail (no phone calls) to the Buyer listed on page 2, a minimum of five (5) business days prior to the submittal due date.

In the event that it becomes necessary to provide additional clarifying data or information, or to revise any part of this BID, supplements or revisions will be provided to all known Bidders in the form of an Addendum. All Addenda are posted on www.yakimawa.gov/services/purchasing and sent directly to interested parties who have registered (per instructions on website) for updates to this BID.

If any requirements of the BID are unacceptable to any prospective Bidder, they may choose not to submit a Bid.

29. Incurring Costs

The City is not liable for any cost incurred by a Bidder in the process of responding to this BID, including but not limited to the cost of preparing and submitting a response, in the conduct of a presentation, in facilitating site visits or any other activities related to responding to this BID.

30. No Obligation to Contract

This BID does not obligate the City to contract for service(s), or product(s) specified herein. City reserves the right to cancel or reissue this BID in whole or in part, for any reason prior to the issuance of a Notice of Intent to Award. The City does not guarantee to purchase any specific quantity or dollar amount. Bids that stipulate that the City shall guarantee a specific quantity or dollar amount will be disqualified (e.g. "all-or-none".)

31. Retention of Rights

The City retains the right to accept or reject any or all Bids or accept any presented which meet or exceeds these specifications, and which would be in the best interest of the City and will not necessarily be bound to accept the low bid.

32. Points Not Addressed

33. Other City Departments/Like Items Added

At any time during the term of this contract, or any extension thereof, other City departments may be served under these same terms and conditions. Additional like items may be added at the request of the Purchasing Manager.

34. Materials Bought from Different Supplier

Should the Contractor be unable to or refuse to supply materials, on any given day, against this predetermined delivery schedule to which the supplier has agreed and the City is forced to do the work with materials bought from a different supplier, the difference in the Bid price of the materials and that paid the new supplier, in order to do the work, shall be charged to and paid for by the Contractor holding the Bid award for these products.

Contractor shall not, however, be responsible for delays in delivery due to:

- Unavoidable mechanical breakdowns
- Strikes
- Inability to secure component materials
- Acts of God
- Fire

Provided the Buyer listed on Page 2 is notified in writing by the Contractor of such pending or actual delay. In the event of any delay, the date of delivery shall be extended for a period equal to the time lost due to the reason for the delay.

35. Re-Award

When the contract is terminated by the City or the Contractor upon providing the written notice as herein required, the City, may re-award the contract to the next most responsible bidder within 120 days from original award.

36. Errors and Omissions

The City reserves the right to correct obvious ambiguities and errors in the Bidder's proposal and to waive non-material irregularities and/or omissions. In this regard, if the unit price does not compute to the extended total price, the unit price shall govern.

37. Changes

Any proposed change in this contract shall be submitted in writing to the Buyer listed on Page 2 for prior approval. If approved, she will make the change by a contract modification that will become effective upon execution by the parties hereto. Any oral statement or representation changing any of these terms or conditions is specifically unauthorized and is not valid.

1. Bid Evaluation:

The evaluation and selection of a Bidder will be based on the information submitted in the Bid. Award will be made to a responsible Bidder with the lowest responsive Bid. 2. Offer in Effect for Ninety (90) Days

A Bid may not be modified, withdrawn or canceled by the Bidder for a ninety (90) day period following the deadline for Bid due date, or receipt of best and final offer, if required, and Bidder so agrees by submittal of a bid.

3. Protest Procedure

The timeframe is not based upon when the bidder received the information, but rather when the announcement is issued by Purchasing.

Award Regardless of Protest

When a written protest against making an award is received, the award shall not be made until the matter is resolved, unless the City determines that one of the following applies:

- The supplies or services to be contracted for are urgently required;
- Delivery or performance will be unduly delayed by failure to make award promptly;
- A prompt award will otherwise be advantageous to the City.

If the award is made, regardless of a protest, the award must be documented in the file, explaining the basis for the award. Written notice of the decision to proceed shall be sent to the protester and others who may be concerned.

The City retains the right to enter into any contract and nothing herein shall be construed to limit that authority in any manner.
