- Stormwater utility improvements:

Stormwater will be retained on site with bio-infiltration swales and infiltration galleries which will involve excavation, importing pervious material, and significant plantings to absorb runoff from the approximately 15,000 square foot development and parking lot. The bio-infiltration swales provide treatment for runoff from the parking lot and consist of 6 inches of free-draining soil that treats pollutants in the runoff and landscape plantings. Infiltration galleries placed below these swales consist of rounded drain rock to provide storage capacity and to promote infiltration through the gallery bottom, as well as filter fabric to separate the galleries from fine soil particulates. Runoff from the roof, hardscape pedestrian areas, and landscape areas utilizes 6-inch storm pipe and sheet flow to collect in drain basins.

This project is expected to be complete by June 30, 2024.

The "Copyright Provisions", Section 16 of the General Terms and Conditions, are not intended to apply to any architectural and engineering design work funded by this grant.

Based on the criteria within the state capital budget, SSB 1080 Sec 1074, (Laws of 2021), and criteria developed by Commerce to ensure the terms of the appropriation are met, all grants must meet the following criteria:

- Applicant must be a city, county or public utility district, applying in coordination with the developer of a multi-unit affordable housing project, located within a jurisdiction that imposed a sales and use tax under RCW 82.14.530(1)(a)(ii), 82.14.530(1)(b)(i)(B), 82.14.540, or 84.52.105.

- The utility project must serve new multi-unit affordable¹ housing projects that serve and benefit low-income households.² If the project is a mixed-income project, the affordable portion of the development must be at least 25%.
- The affordable housing project should be part of a program that will monitor affordability for a minimum of 25 years, such as the Housing Trust Fund, low-income housing tax credits, housing authority, or a city monitoring process. A covenant and/or note and deed of trust may be required as part of securitization to ensure affordability.

¹ "Affordable housing" has the same meaning as in RCW 43.185A.010, and means residential housing for rental occupancy which, as long as the same is occupied by low-income households, requires payment of monthly housing costs, including utilities other than telephone, of no more than thirty percent of the family's income. In the context of homeownership, the definition from the [Housing Trust Fund Handbook](#) applies (Section 701.7): "affordability occurs when a household's monthly housing costs are generally no more than 38 percent of monthly household income and total debt is no more than 45 percent of monthly household income. Housing costs include mortgage principal, interest, property taxes, homeowner insurance, homeowner association fees, and land lease fees, as applicable. Total debt includes other debt and utilities."

² "Low-income household" has the same definition as in RCW 43.185.010(6), and means a single person, family or unrelated persons living together whose adjusted income is less than eighty percent of the median family income, adjusted for household size, for the county where the project is located.

How this project meets criteria for APRA SLFRF Projects

This project aligns to the Expenditure Category 3 of ARPA SLRF, services to Disproportionately Impacted Communities, Housing Support: Affordable Housing EC 2.15,³ Under ARPA's SLFRF guidance, funding for this grant falls under the category of responding to "*Public Health and Economic Impacts*" of the COVID-19 public health emergency. Within that category of eligible actions, this program is intended to "*Building Stronger Communities through Investments in Housing and Neighborhoods*" by serving those communities that were hardest hit by the pandemic through investments in affordable housing development. Eligible services include: *Affordable housing development to increase supply of affordable and high quality living units*. Supporting the development of affordable housing is important to address a limited supply of housing, some of which is inadequate, or of poor quality.⁴ The Interim Final Rule supports this finding by stating that "both the public health and economic impacts of the pandemic have fallen most severely on communities and populations disadvantaged before it began" including "low income communities, people of color, and Tribal communities."⁵
