**Prepared By: Jesse Leis**

**Terms of Agreement:** The above mentioned items will be invoiced upon Contract signature with payment terms of net 30 days.

- The recurring annual fees will be invoiced annually in advance.
- Project completion occurs upon receipt of the product.
- ImageTrend's license, annual support and hosting are based on up to 13,000 annual incidents as provided by Client. \*IMAGETREND will perform price increases of the recurring fees. The first price increase will occur with the fees due for year two. These price increases will occur once a year and may not exceed 7% of the price then currently in effect.
- This proposal is valid for 90 days.
- This quote reflects ImageTrend's standard non-CJIS compliant framework, and is provided without any CJIS-related warranties, representations, or contractual commitments. Additional information and pricing for ImageTrend's advanced CJIS compliant offerings are available upon request.
- The estimates set forth herein do not constitute a binding offer or acceptance. This quote does not express the full agreement or understanding of the parties, is subject to additional due diligence and change, and shall not be binding on ImageTrend. The parties do not intend to be legally bound until they enter into definitive agreements regarding the subject matter hereof.

**IMAGETREND will invoice sales tax to non-exempt CLIENTS where applicable**

**DISCLAIMER: This quote creates no legal obligations.** This letter is intended to confirm the parties' current understanding of the terms, but it is not intended to create any legal obligations with respect to any of the terms. Neither party should rely on this quote and no legal or equitable remedy will arise from any such reliance. Instead, the parties must reach a final agreement. A final agreement will be a condition precedent to any binding obligations. A fully executed Contract Agreement will be required to be completed before an order is processed.

## PRODUCT DESCRIPTIONS

<b>Elite™ Rescue - SaaS *Includes Elite™ Field</b>	In addition to receiving both Elite EMS and Elite Fire for compliant data collection, the Rescue package includes the Locations/Occupants/Inspections module.
<b>Mobile Fire Inspections - SaaS</b>	Elite Mobile Fire Inspections allows you to enter or edit location, occupant, and inspection records while offline and working in the field. It synchronizes all data bidirectionally with Elite Web. Note: Elite Fire or Rescue is required.
<b>Investigations</b>	Investigations is a separate module that allows your investigators to document all aspects of a fire-related investigation, including such things as witnesses, evidence grids and weather related information. Note: Elite Fire or Rescue is required.
<b>Microsoft Azure Active Directory SSO</b>	Single Sign-On (SSO) is an add-on for Elite that allows you to integrate with Azure Active Directory for single sign-on (SSO) functionality. This means that your system can be set up to link a user's account with their corporate account, allowing them to log in to Elite with their employer-managed Microsoft username and password. Please reference the FAQ in the University for more details on requirements and functionality.
<b>CAD Distribution</b>	The ability to easily integrate CAD data into run reports is very beneficial in ensuring accurate data. CAD data can be obtained via a file export, a query or it can be sent directly to the ImageTrend web service. Only fields listed in the CAD integration workbook are available for population through the integration.
<b>FTP Auto Export</b>	A NEMSIS 3.3.4 or 3.4.0 file can be automatically exported to an SFTP location (agency's or biller's) based on specific criteria being met (i.e. incident status is 'Ready for Billing', incident is locked, etc.). The export process is triggered every 10 minutes. The ePCR PDF can also be exported and will use the same file name as the NEMSIS file.
<b>Webinar Training 2hr Session</b>	Training sessions that are completed via webinar (maximum of 2 hours per session). Topics can include administrator or user education, in-depth education on various modules or features of the system, or learning how to better use Report Writer.
<b>Elite Site to Site Transfers</b>	Elite Site to Site Transfers allows your agency to transfer EMS incidents in the field from your agency to other agencies using an Elite site that exists outside of your Elite System. The setup is based on a per agency basis.
